

Term 5 Newsletter

W e l c o m e
b a c k !

Hello!

Welcome back to school! We hope that you all had a nice Easter break and spent lots of time having fun with friends and family. Hopefully you were lucky enough to have a little chocolate at Easter too!

Last term, you all impressed us with your hard work and efforts, so well done and keep up the good work!

This year seems to be flying by, as we are now in the first of our two Summer terms, so let's make it a brilliant one!

H o m e w o r k

Reading books shall continue to be changed as and when needed. Please continue to read as much as you can as it really makes a huge difference.

Spellings, as before, shall be given out each Thursday and tested each Wednesday.

Please could you also try to complete your online Maths Shed tasks each week, if possible. These are repetitive by nature to help build fluency.

K e y D a t e s

4th May – Bank Holiday

6th May – Internal Keysteps competition

15th May – Sponsored bounce

22nd May – Cake Sale

Term 5 Curriculum Overview

Maths – In our sessions we shall be exploring multiplication and division, revising our fraction work on halves and quarters and looking into position and movement.

English – We shall be using key texts such as 'Tortuga' by Paul Geraghty, to focus on our book talk, inference and deduction skills, descriptive writing, punctuation, sentence structure and vocabulary choices.

Science – This term we shall be discussing habitats and matching these with both animals and plants suited to each. We will consider how these different habitats provide for the basic needs of the animals and plants living within them.

Art/DT - In Art and DT, the rabbits will be focussing on the use of pastels. We shall be exploring some of the different effects we can make using techniques such as hatching, stippling and scumbling. We shall also be creating some 'moving books' using our DT skills.

Music – In Music, led by Mrs Whittaker, the Rabbits will be listening to, discussing and appraising music from different countries within the UK and will be performing together.

RE - In their RE sessions with Mrs Whittaker, the Rabbits will be exploring what makes a place sacred or special.

PSHCE – In these sessions we shall be exploring who helps to keep us safe and what to do should we ever feel worried or afraid.

Computing - During our computing sessions, we shall be exploring how to group data. We will be describing images and objects by adding labels and grouping them to answer questions posed.

History – In our sessions we shall be learning about a significant person from the past – Neil Armstrong. We shall be exploring who he was and his amazing trip to the Moon!

PE – This term, we shall continue focussing on our keysteps gymnastics routine, take part in athletics activities and also learn some cricket skills together.
